GITHUB | LINKEDIN | HACKERRANK

EDUCATION

SIRAJUDAULLAH GOVT. COLLEGE
PRE-ENGINEERING INTERMEDIATE

August 2023 - September 2025
Karachi, Pakistan

THE MI SCHOOL
COMPUTER SCIENCE MATRICULATION

June 2013 - May 2023
Karachi, Pakistan

SAYLANI MASS IT
AI AND DATA SCIENCE COURSE

July 2025 - Present
Karachi, Pakistan

CISCO NETWORKING ACADEMY
PYTHON PROGRAMMING COURSE

October 2025 - December 2025
Karachi, Pakistan

EXPERIENCE

DECODELABS | DATA ANALYST INTERN

Remote | Apr 2026 – May 2026

- Completed a 4-week virtual internship focused on practical data analytics and real-world problem solving.
- Worked on hands-on projects involving data processing, analysis, and insights generation, while applying industry-standard tools and techniques to build a strong analytical portfolio.

ARCH TECHNOLOGIES | DATA SCIENCE INTERN

Remote | Feb 2026 – March 2026

- Performed data cleaning, EDA, and analysis using Python and SQL.
- Wrote PostgreSQL queries to extract insights from structured datasets.
- Built dashboards and reports to visualize trends and support decisions.
- Collaborated with the team on real-world data science projects

SYNTECX HUB | DATA SCIENCE INTERN

Remote | Jan 2026 – Feb 2026

- Analyzed and preprocessed datasets using Python for real-world data science tasks.
- Developed and evaluated machine learning models under mentor guidance.
- Created visualizations and reports to communicate insights effectively.
- Gained hands-on experience working on industry-oriented projects in a remote environment.

CODEALPHA | DATA SCIENCE INTERN

Remote | Jan 2026 – Feb 2026

- Cleaned, analyzed, and visualized datasets to extract actionable insights
- Built and evaluated machine learning models using Python, Pandas, and Scikit-learn
- Applied feature engineering and model optimization techniques to improve performance
- Collaborated on real-world projects and gained hands-on experience with end-to-end ML workflows

ADVERZ.PRO | PROXY MARKETER

Karachi, Pakistan | Feb 2022 – Present

- Creative and analytical proxy marketer with experience in managing digital campaigns, optimizing conversions, and driving growth.

SKILLS

PROGRAMMING LANGUAGES	Python, CSS, Proxy Marketing, AI/ML, SQL, R
LIBRARIES/FRAEMWORKS	Numpy, Pandas, Matplotlib, Seaborn, Scikit Learn, OpenCV
TOOLS / PLATFORMS	Git, Github, Google Colab, Anaconda, Kaggle, Ms Word, VS Code, Ms Power-Point, Ms Excel, Canva, Replit, Jupyter Notebook, Power BI, Excel, Tableau
DATABASES	SQL, MySQL, SQLite, Postgre SQL, SQL Server, MongoDB, GoogleBigQuery

PROJECTS / OPEN-SOURCE

SEMANTIC SEARCH ENGINE | [LINK](#)

Python, Streamlit, OpenAI, Pinecone, NLP, RAG

- An AI-powered document search application that enables users to upload PDF files and retrieve relevant information using natural language queries. The system utilizes vector embeddings and semantic similarity search to provide context-aware results beyond traditional keyword matching.

AIHIRE ATS RESUME ANALYZER | [LINK](#) Python, Streamlit, NLP, Machine Learning, Pandas, Scikit-Learn

- AIHire ATS Analyzer is an intelligent resume evaluation platform designed to help job seekers improve their resumes and increase their chances of passing Applicant Tracking Systems (ATS).
- The application analyzes uploaded resumes, extracts relevant skills, evaluates ATS compatibility, and provides detailed recommendations for optimization.

LICENSE PLATE DETECTION SYSTEM | [LINK](#)

Python, YOLOv8, EasyOCR, OpenCV, NumPy, SQLite, Gradio

- Developed a real-time License Plate Detection System using Python, YOLOv8, EasyOCR, and OpenCV to detect vehicles, extract license plate numbers, and store violation records in SQLite with a Gradio-based web interface.

AI CHATBOTS FOR BUSINESSES | [LINK](#)

Python, Streamlit, LangChain, OpenAI, Pinecone, Sentence Transformers

- Developed an AI-powered chatbot leveraging Large Language Models and Natural Language Processing to provide intelligent conversational assistance and automated user support.

SUPPLY CHAIN DELAY PREDICTION & OPTIMIZATION SYSTEM | [LINK](#) Python (Pandas,Scikit-Learn), Matplotlib, Machine Learning Models(Random Forest, Gradient Boosting)

- Developed a machine learning model to predict shipment delays using historical logistics and order data
- Performed data cleaning, feature engineering, and exploratory data analysis (EDA) to identify key delay drivers
- Implemented models such as Random Forest and Gradient Boosting to improve prediction accuracy
- Visualized delay trends and operational insights using Power BI dashboards
- Enabled data-driven decision-making to optimize delivery performance and reduce delays

ENTERPRISE DATA WAREHOUSE DESIGN & ETL PIPELINE IMPLEMENTATION | [LINK](#) SQL Server, T-SQL, Data Warehousing, ETL, Data Analysis

- Created a relational data warehouse schema and implemented ETL processes using BULK INSERT.
- Utilized advanced SQL techniques including CTEs, window functions (LAG, AVG, SUM OVER), and aggregations to perform time-series analysis, customer segmentation, and KPI reporting.

CERTIFICATIONS

- Python Programming - **CISCO NETWORKING ACADMEY**
- Data Science & Analytics - **HP LIFE**
